ECONOSTITCH

Non-coated nylon peel ply with red tracers

DESCRIPTION

Econostitch is a heat set and scoured nylon peel ply with red tracers which make this peel ply more visible before and after a cure, reducing the possibility of the peel ply being left on the part.

Our Econo peel plies are designed to work in resin infusion or hand lay-up processes. Econostitch assists or eliminates the need for sanding or abrading on your composite laminate.
